Dust jacket templates available for all sizes on request.

1. Use the template as a guide in designing the dust jacket.
2. Guides are included for possible layout options, but please feel free to design your own ensuring trim lines & folding marks are adhered to.
3. Do not resize the dust jacket as it will not fit the books.
4. Place all info required on the dust jacket to be inside the solid black line as this is where the dust jacket will be trimmed.
5. Make sure the black line is still visible so dust jacket can be trimmed to correct size.
6. Erase all grey background text & any other info which you do not wish to appear on dust jacket.
7. Supply dust jackets as jpeg, tif or psd files at 250dpi.
